SOC 4650/5650: R Project Set-up Workflow

Christopher Prener, Ph.D.

Spring 2020

1 Add R project to top-level folder

2 Add subfolders as needed

3 Add README.md

Subfolders

```
| Project/
|---- data/
|---- docs/
|---- results/
|---- source/
```

4 Add notebook to docs subfolder

Notebook

5 Expand YAML heading

6 Add Short Introduction

8 Clearly load all required data

7 Clearly list and load all package dependencies

9 Test both `html` and `github` output
